CLICKERS: Adding an Interactive Slide in a PowerPoint Presentation

1. To add a TurningPoint Slide to your presentation, click the **Insert Slide** button from the TurningPoint ribbon tab (Figure 1).

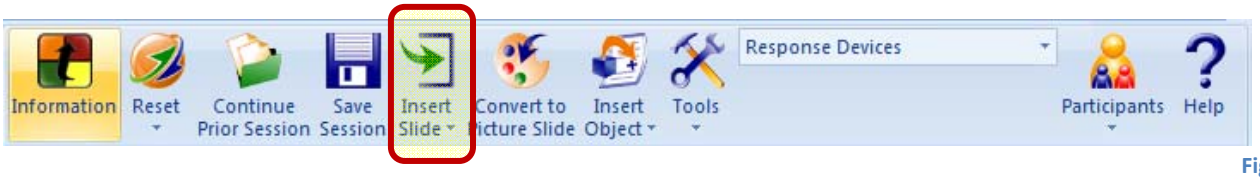

Figure 1

2. From the pull-down menu, select a slide type from the "A" group (Figure 2).

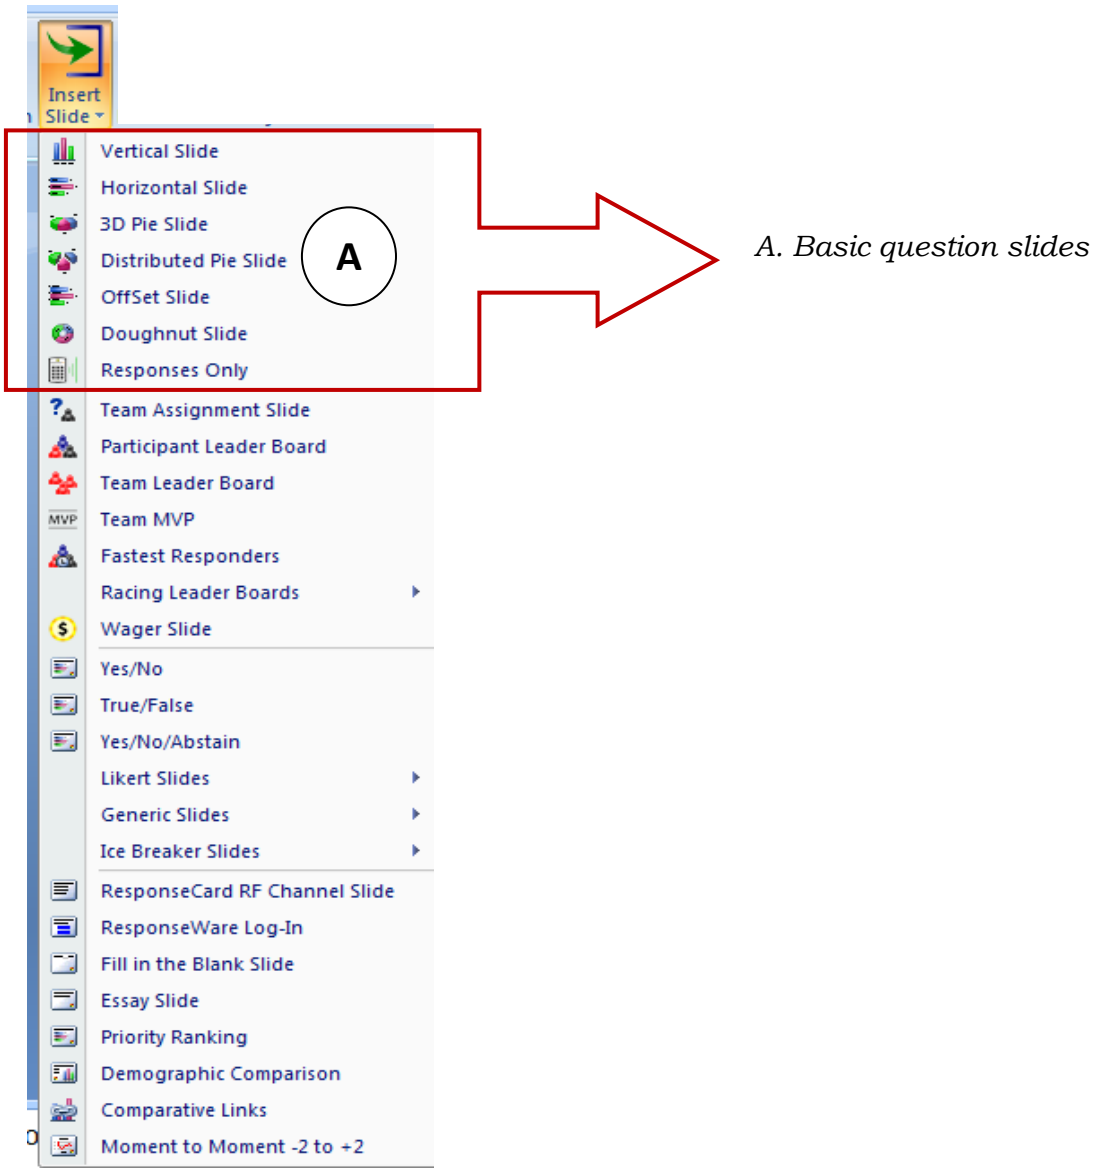

Figure 2

3. Your newly inserted slide will prompt you to type in your question, then your answer choices. You may enter up to 10 possible answers (Figure 3).

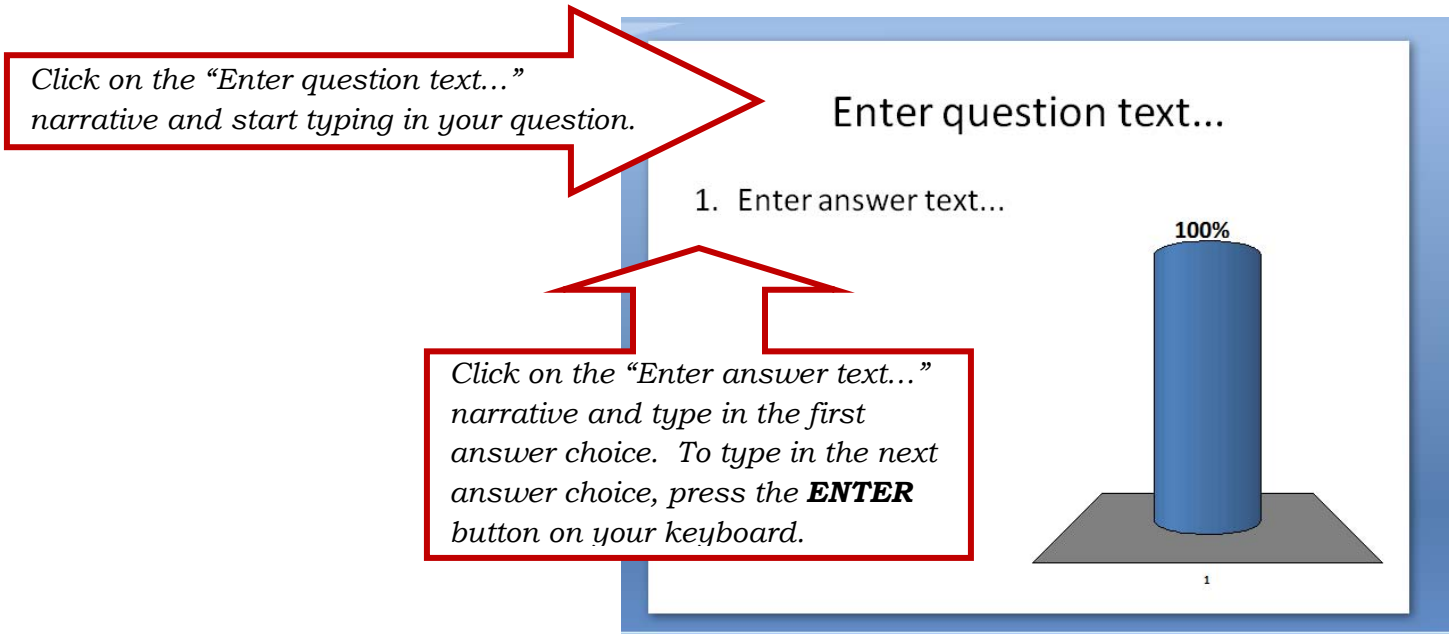

Figure 3

4. On the TurningPoint 2008 task pane (figure 4), type in the point value for a correct answer and the point value for an incorrect answer. In the **Answer Values** section, use the pull-down menu to select which choice(s) are correct.

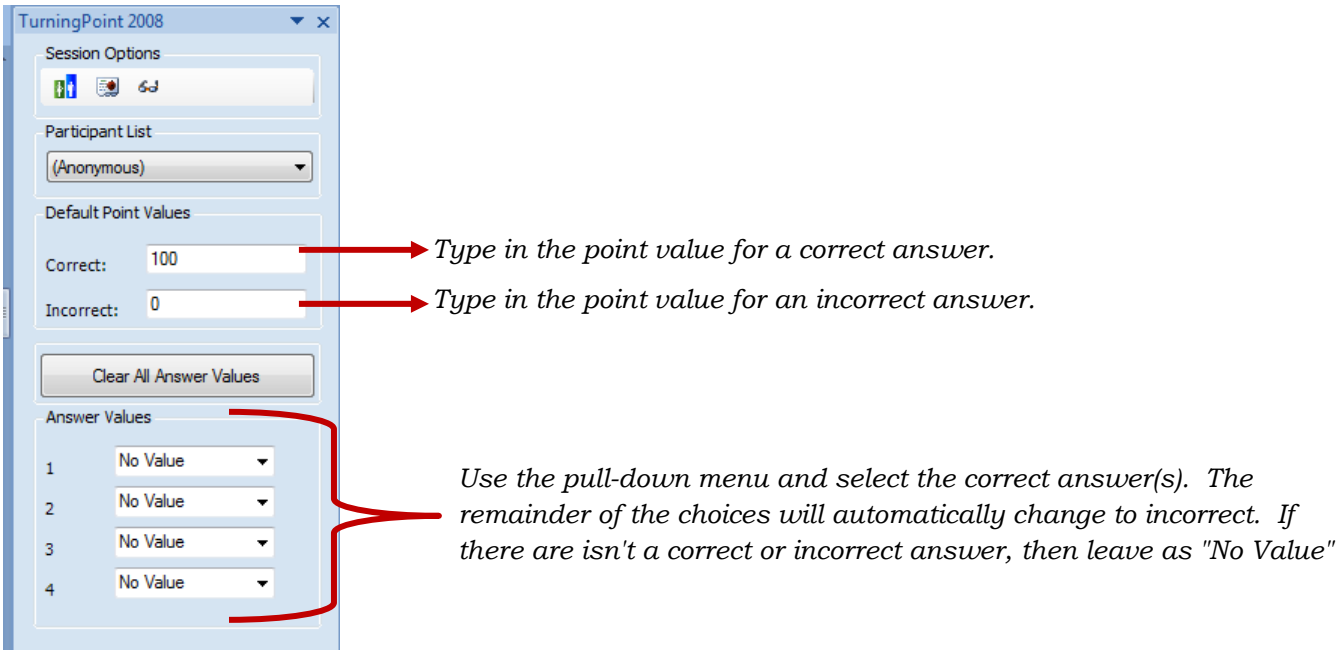

Figure 4

OPTIONAL….

5. Click the **Insert Object** button from the TurningPoint ribbon tab (Figure 5). Select one of the options from the menu (Figure 6).

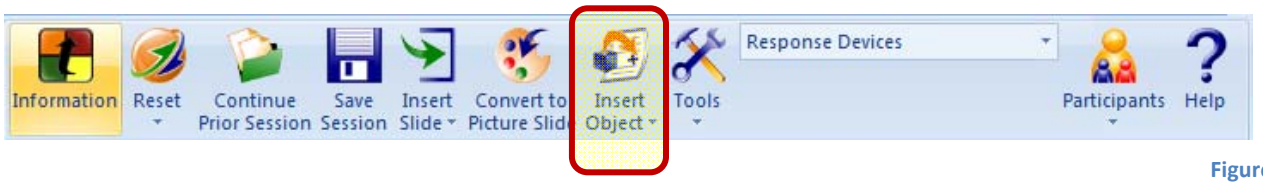

Figure 5

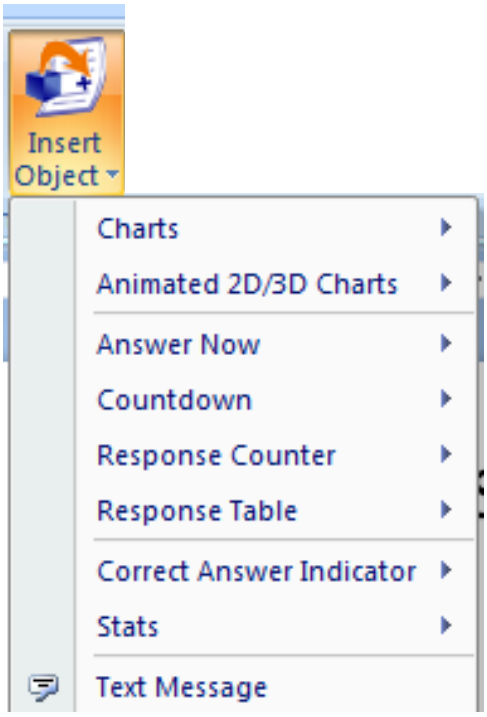

Figure 6

- ***Charts*** change the chart type on your slide.
- ***Answer Now*** adds an "answer now" indicator to the slide.
- ***Countdown*** places a countdown timer to the slide.
- ***Response Counter*** adds a counter that will count your incoming responses to your slide.
- ***Response Table*** adds a table that will illustrate individual incoming responses.
- ***Correct Answer Indicator*** identifies the correct answer before proceeding to the next slide.
- ***Stats*** adds statistical data to the slide.
- ***Text Message*** sends a message to the responders. (NOTE: This option is not available in this system.)

OPTIONAL….

6. Click on the glasses icon from the TurningPoint 2008 task pane (figure 7) to open the settings box (figure 8). There, you can manipulate the default settings and customize various aspects of your presentation, including the chart colors, the response time, and allowing multiple responses.
