

## Taking an online test in Blackboard -- Internet 8 tipsheet

There is a compatibility problem with Internet 8 and taking timed tests in Blackboard. This is a known problem with Internet Explorer that all universities experience. Students have two options:

- use a different browser, such as Firefox.
- OR - enable compatibility mode within Internet Explorer 8.

### How to enable compatibility mode within Internet Explorer 8

1. Open Internet Explorer 8.
2. Go to the Coppin blackboard site: <https://eaglebb.coppin.edu>
3. Click the  "Compatibility View" icon in the address bar:

3. Students will briefly see a message to alert them that IE is now running in Compatibility View:
