Commonly used pages in Workday, called landing pages, are used to view data and perform tasks. Each page will have navigational tools (menus, icons, buttons, fields, etc.) which help you get around the system. The picture below, displays the Home page.

**Workday Icons:**
1. Return to your Home page.
2. Search:
   - Search for people, tasks, and reports in the search field.
   - Predictive suggestions return common matching results to which you have access.
3. Worklet:
   - Icons found on landing pages that provide quick access to tasks and information used on a regular basis (e.g., personal information, your account, inbox, etc.). Some worklets are configurable.

**Profile Icon:**
- Opens up Workday Menu options (based on your security access).
- Provides access to your landing pages, inbox and notifications, account settings, favorites, dashboards/reports, and access to sign out of Workday.

**View Profile:**
- View and edit your personal information.

**Landing Pages (Links):**
- Display a collection of different worklets to allow you to quickly view data and perform tasks.

**Inbox:**
- Central location for finding tasks that require your attention.

**Notifications:**
- Informs you of relevant events that have been completed.

**My Account:**
- Change/manage your password and password questions and manage your preferences.

**Sign Out (button):**
- Click to sign out of Workday.
Some worklets are permanent and cannot be deleted from a landing page. Others can be added and configured as desired. **NOTE:** Worklets display based on your system access. Some common worklets are listed below:
