NEW PSALMIST CHRISTIAN SCHOOL    COPPIN STATE University

By:  
Minister Andy Jones, School Board  Dr. Sadie Gregory, Interim President
President

Minister Te-Veria Lee, Principal

Approved for form and legal sufficiency this ___ day of __________, 2004.

Assistant Attorney General and Counsel to Coppin State University
The Community College of Baltimore County and Coppin State College enter into this agreement to serve the needs of our students. The general purpose of this agreement is to make clear the historical understandings and current policies.

There are three specific goals under this agreement. First, it is our intent that this agreement will make the transition from The Community College of Baltimore County to Coppin State College as smooth as possible for our teacher education students pursuing careers in Special Education. It should be noted that Special Education is a critical shortage area in Maryland and throughout the country.

Second, this agreement is a publication of a clear set of expectations for programs at both institutions. Making our expectations clear to our students and to each other not only contributes to the first goal, but also makes advisement clearer and allows us to work together in the best interest of students. Like any policy agreement, this document will need to be updated, revised and refined as our programs change. Having a baseline understanding in place makes such revision more logical and contributes to the staying power of the agreement. It is agreed that each institution will inform the other whenever programmatic changes take place.

Third, we agree to encourage our students to continue to professionally develop throughout their teaching careers, not only for their personal betterment, but also to best serve the students they will in turn teach.

The following sections describe the specifics of the agreement:

The Community College of Baltimore County and Coppin State College recognize the need for and the importance of facilitating the transfer of students from CCBC to Coppin State College as these students pursue their academic goals. To enhance this transition, this formal articulation agreement is established. It is based on a thorough review of curricula at both institutions in Special Education.
Academic Agreements

1. While this articulation is a course-for-course agreement, CCBC students are strongly encouraged to complete the Associate's of Arts degree in the Special Education option.

CCBC transfer students must meet all Coppin State College Special Education entrance requirements to be admitted to the Coppin State program including passing PRAXIS I.

2. Coppin State College will recognize CCBC transfer students as juniors. Coppin State College will officially classify CCBC transfer students as juniors when sixty credit hours are earned.

3. Coppin State College will accept up to 69 credits in transfer per the equivalency chart below.

4. Coppin State College will accept the transfer students' G.P.A. as calculated by CCBC.

MEMORANDUM OF UNDERSTANDING
Educational partnership between Harford Community College 
and the University of Maryland System (U.M.S.) 
In conjunction with the Higher Education Applied Technology Initiative

Purpose:

It is the purpose of this memorandum of understanding to provide a basis for the establishment of operational relationships between the Harford Community College (H.C.C.) and the University of Maryland System (U.M.S.) in the formation of an educational partnership in support of the goals of the Higher Education Applied Technology (H.E.A.T.) project. This memorandum describes the goals, assumptions and parameters of this partnership. It is specifically intended that from time to time the two institutions will enter into agreements to accomplish specific transactions. This memorandum will serve as a description of the areas in which there may be such agreements, a statement of the spirit and tone of the agreements and a guide to the development of specific arrangements between the institutions.

Goals:

The major goals or objectives which the institutions wish to accomplish through their partnership are:

- To provide expanded educational opportunities for the residents of Harford and Cecil Counties through the availability of upper-division work leading to baccalaureate and/or graduate programs or courses in specific fields.

- To extend access to higher education opportunities through educational programming designed for adults and responsive to the needs of Northeast Maryland.

- To provide complete articulation between specified associate degree and bachelor's degree programs which provide upward mobility and opportunity for students.

- To provide a cost effective means for expanded higher education opportunities for Harford and Cecil Counties.

- To provide leadership in innovative strategies to assure economic and community development for the region.

Program Design:

- The U.M.S. agrees to participate as a partner in the H.E.A.T. Center and to provide academic programming designed to meet the needs of students in Harford and Cecil Counties as a part of the H.E.A.T. initiative. The schedule and format of the instructional delivery will be agreed upon jointly by Harford Community College and
the participating U.M.S. institution to assure coordination with other H.E.A.T. partner institutions and programs.

- The H.E.A.T. Center and the Harford Community College campus will be the primary sites of programming with a schedule to be agreed upon prior to each semester.

- The H.E.A.T. initiative is specifically designed to meet the needs of working adults in Northeast Maryland and it is understood that program design, scheduling, and instructional delivery will be tailored to meet those needs.

**Transfer Articulation:**

- The participating U.M.S. institution will accept credits as specified by articulation agreements in effect at the time of the student's matriculation at Harford or Cecil Community College, provided that the student has met all conditions of the agreement. Articulation agreements are listed under the "Recommended Transfer Programs" in the U.M.S. ARTSYS database. However, this memorandum of understanding does not prohibit the partner institutions to establish additional articulation agreements specifically designed to satisfy the needs of the students in specific programs.

  - students beginning their associate degree at Harford or Cecil Community College who wish to pursue a baccalaureate degree will be advised on the appropriate courses in the first and second years to assure transfer into the upper division U.M.S. program.

  - students who have completed their associate degree in an approved articulated transfer program at Harford or Cecil Community College by 1992 or earlier will be assured the transfer of those courses indicated in the articulation agreement.

- An articulation agreement will be in place to confirm the acceptance of all associate transfer credits from Harford Community College and Cecil Community College in the specified programs.

- Graduate programs will be coordinated with H.E.A.T. baccalaureate programs to assure maximum articulation between programs.

**Marketing and Student Recruitment:**

- All marketing of the H.E.A.T. initiative and center and programs and courses associated with the H.E.A.T. initiative will be agreed upon jointly by the H.E.A.T. partners and coordinated by Harford Community College. A coordinated marketing and student recruitment plan will be developed which identifies specific programmatic and financial responsibility for each institution.
Harford Community College will make provisions for U.M.S. H.E.A.T.
Program/Course Information within its class schedule dependent upon scheduling
cycles. These editions of the class schedule are mailed to all Harford County residents
on a shared-cost basis.

Programs, courses, and services not associated with the H.E.A.T. initiative may not use
H.E.A.T. in marketing or promotion.

**Assigned Responsibilities:**

**A. U.M.S. will provide the following resources and services in support of the H.E.A.T.
partnership:**

1. The upper division courses in specified baccalaureate degree program(s) for
   individuals who have completed associate degree in those areas and/or
   specified graduate courses or programs as agreed upon and in accordance with
   Maryland Higher Education Commission guidelines for off-campus programs.

   Specific course schedules and offerings will be jointly determined by the
   academic administrators of the two institutions. No duplication of Harford
   Community College or Cecil Community College courses will occur without
   the concurrence of Harford Community College, the coordinating institution for
   H.E.A.T.

2. Programs should demonstrate significant involvement by full-time faculty. The
   faculty shall remain employees of the U.M.S. and shall not be considered
   employees or agents of Harford Community College.

3. U.M.S. will be responsible for all on-site registration, academic counseling,
   financial aid counseling, and business office services on a defined schedule for
   students enrolled in H.E.A.T. initiative courses and programs.

4. Inter-library loan support and access to the U.M.S. library for students.

5. H.E.A.T. partner institutions will participate equitably in costs associated with
   the H.E.A.T. Center on the basis of enrollment and classes offered.

6. U.M.S. agrees to inform Harford Community College prior to conducting major
   fund-raising activities among Harford or Cecil County organizations. The
   intent of this notification is to avoid overlap and to coordinate the timing of
   fund-raising efforts by higher education partners. Partners are encouraged to
   provide early notification to avoid such conflicts. This notification does not
   apply to alumni solicitations.
7. To assist H.E.A.T. educational partners in coordinated and responsive educational programming in support of the economic development goals in the region, U.M.S. agrees to notify Harford Community College prior to conducting contracted training or open enrollment (credit or non-credit) courses or training in Harford or Cecil Counties.

B. Harford Community College will provide the following resources and services in support of the H.E.A.T. partnership:

1. Programmatic coordination of academic programs and courses associated with the H.E.A.T. initiative. Harford Community College will serve as the coordinating agent for the educational partnerships associated with the H.E.A.T. initiative. It is the understanding that H.E.A.T. partner institutions will avoid unnecessary duplication of programs and courses. Harford Community College will serve in a coordinating role to avoid duplication and encourage partnership arrangements where appropriate. As the coordinating agent, Harford Community College will determine, through a collaborative process, those programs to be offered as a part of the H.E.A.T. initiative.

2. Facilities management of the H.E.A.T. site and support for distance learning activities agreed upon for the H.E.A.T. initiative.

3. Classrooms as determined by a coordinated educational plan with H.E.A.T. partner institutions.

4. Access to Harford Community College's library, library services and automated services including INTERNET and SAILOR.

5. Access to H.E.A.T. and/or Harford Community College's computer and specialized laboratories pursuant to an agreed schedule. Funding for additional software and laboratory supplies required by U.M.S. will be provided by U.M.S.

6. Security and housekeeping for classrooms pursuant to an agreed schedule.

7. Shared office space as agreed upon to support the administrative and student services functions being provided by U.M.S. Dedicated spaces may be arranged through a supplemental agreement.

8. Instructional support including audiovisual equipment and services and access to duplication equipment. Charges for duplication and telecommunications will be at the Harford Community College standard rate.

9. Bookstore services at the Harford Community College campus store for U.M.S. students pursuant to an agreed schedule.
10. Reasonable notice will be given to U.M.S. should any change in scheduling be necessary.

Agreement and Renewal

This agreement will be effective as of the date of signature. This agreement shall be reviewed annually and may be cancelled by either party with a one semester notice. The academic plan will be reviewed and reaffirmed by June 30th of each year.

12/15/94
This Memorandum of Understanding, signed by the President of Montgomery College (the College), the Chancellor of the University System of Maryland (USM), and the Superintendent of the Montgomery County Public Schools (MCPS), establishes and affirms the relationship and obligations of USM and the College for cooperatively offering undergraduate-level studies in Montgomery County. USM and the College acknowledge and welcome these college-level experiences in the public schools and will continue to work cooperatively with MCPS to provide them.

The MOU acknowledges the efforts of each party to work together in the best interests of the County's citizens, who seek educational opportunity in increasingly diverse venues and formats. This MOU builds on the positive relationships and productive programs that the partner institutions have built separately and together in recent years and seeks to continue thoughtful, proactive and responsive development of initiatives in the years to come.

The College, USM and MCPS agree:

1. To work cooperatively to provide innovative, appropriate, post-secondary programs and coursework in MCPS.

2. To continue to work together to facilitate the smooth and informed matriculation of students from MCPS to the College or USM institutions as appropriate. This includes the continued partnership of faculty and staff from MCPS, the College, and USM, who work directly with students.

3. To continue to maintain clear and open communication among the participating institutions as programs are proposed, implemented, and evaluated, to ensure that the programs meet the needs and mission of each of the institutions within the County.

4. To form a collaborative council, consisting of representation from each institution. The Council will work cooperatively to consider credit offerings proposed in the schools. This council will generate, solicit, and review proposals for "early college" and postsecondary opportunities in MCPS. The council will recommend a venue best meeting the needs of the students, consistent with the mission, resources, and needs of the institutions involved. Final approval and implementation will be dependent on the Deputy Superintendent of Schools and the development of a formal agreement between the cooperating institutions.
This agreement acknowledges and welcomes the rapidly developing expansion of MCPS programs, such as the College Institute and other developing models that provide postsecondary coursework in County secondary schools.

The College, USM, and MCPS wish to work together to respond constructively to the needs of the County, as reflected by the County Council and County Executive, and the workforce and community needs of the State of Maryland.

**AGREEMENT**

The undersigned have reviewed this Memorandum of Understanding and accept it as the basis for developing a coordinated system of delivery of postsecondary instruction to the students of Montgomery County Public Schools. This agreement is to be reviewed annually.
