

THANK YOU LETTER-JOB FAIR

323 Rommel Avenue
Baltimore, MD 21222
March 15, 2008

Mr. Jeffrey A. Moon
Personnel Officer
National Security Agency
Attention: M322 (AAP)
Fort George G. Meade, MD 20755-6000

Dear Mr. Moon:

Thank you for speaking with me at the Career Exploration Day held at Coppin State University on March 12, 2008. I found our conversation about the opportunities at the National Security Agency quite interesting and informative.

Thank you for sending me an application for employment with your agency with the letter stating that I had passed the Professional Qualification Test held last fall. I am still very interested in submitting an application for a position as a Mathematician or related position with your agency.

I look forward to interviewing with the National Security Agency on April 19, 2008 at Coppin State University. I am currently a candidate for a Bachelor of Science degree in Mathematical Science at Coppin and I expect to graduate this May. I can be reached at (410) 951-3000 or MonetLittle@gmail.com.

I look forward to meeting with you again in April.

Sincerely,

Monet Little
